# ABSINTHE VERTE

No artificial ingredients, no gimmicks. St. George Absinthe Verte was the first American absinthe released after the U.S. ban was lifted, and is still one of the most highly acclaimed. This layered and evocative spirit is made from wormwood, fennel, star anise, and other choice botanicals in a base of fine brandy. Savor over ice — no sugar needed — for the ultimate absinthe experience, or enjoy in any cocktail that calls for an anise spirit. *Also available in 200ml!*
